29 Matches for "McArthur, D"

- 1999 DRU- The Arts and Prosocial Impact Study: Program Characteristics
1887 and Prosocial Effects.
- 1998 MR- Untangling the Web: Applications of the Internet and Other
975 Information Technologies to Higher Education.
- 1998 DRU- Muddy Learning: Evaluating Learning in Multi-User Computer-
1688 Based Environments.
- 1998 RP- ESSCOTS for Learning: Transforming Commercial Software into
684 Powerful Educational Tools.
- 1997 DRU- The Arts and Prosocial Impact Study: An Examination of Best
1686 Practices.
- 1996 DRU- The Arts and Prosocial Impact Study: A Review of Current
1457 Programs and Literature.
- 1993 DRU- The Roles of Artificial Intelligence in Education: Current Progress
472 and Future Prospects.
- 1992 VID- Microworlds for Mathematical Inquiry.
007
- 1992 N- Implementing a Novel Computer-Related Algebra Course.
3326
- 1991 N- Tutoring Techniques in Algebra.
3231
- 1991 N- Overview of Object-Oriented Microworlds for Learning
3242 Mathematics Through Inquiry.
- 1990 R- Teaching and Learning Generic Skills for the Workplace.
4004
- 1990 R- An Intelligent Tutor for Basic Algebra.
3811
- 1989 N- Skill-Oriented Task Sequencing in an Intelligent Tutor for Basic
2966 Algebra.
- 1989 N- Developing Computer Tools to Support Performing and Learning
2980 Complex Cognitive Skills.
- 1989 N- Algebraic Thinking Tools: Supports for Modeling Situations and
2974 Solving Problems in Kids' Worlds.
- 1988 VID- The RAND Algebra Tutor.
003
- 1988 N- Multiple Representations of Mathematical Reasoning.

2758

1988 P- Motivational Consequences of Computer- and Teacher-Generated
7461 Attribution Feedback.

1987 N- Learning Problem-Solving Skills in Algebra.
2595

1987 R- Building Learning and Tutoring Tools for Object-Oriented
3443 Simulation Systems.

1985 N- The ROSS Language Manual.
1854-1

1985 P- Running ROSS in an Emacs Environment.
7088

1984 R- ROSS: An Object-Oriented Language for Constructing
3160 Simulations.

1984 N- Distributed Problem Solving for Air Fleet Control: Framework and
2139 Implementations.

1983 N- Strategies of Cooperation in Distributed Problem Solving.
2031

1982 N- SWIRL: Simulating Warfare in the ROSS Language.
1885

1981 P- Selected Research Publications in Cognitive Science by RAND
5950/2 Staff: 1979-1980.

1981 N- AUTOPILOT: A Distributed Planner for Air Fleet Control.
1731

Welcome to RAND Education

For over three decades, RAND Education has applied its expertise to almost every aspect of the education system. RAND Education's staff includes

more than 50 experts from a wide range of disciplines. Sponsors of our research include government agencies, foundations, and private-sector organizations.

Our mission is to bring accurate data and objective analysis to education policy. We are a division within RAND, a nonprofit institute that helps improve policy and decisionmaking through research and analysis.

What's New

Examining Gaps in Mathematics Achievement Among Racial-Ethnic Groups, 1972-1992

Examines trends in the mathematics scores of different racial-ethnic groups over time and analyzes how changes in family, school, and schooling measures help explain changes in the test score gaps. Although there were few positive changes between schools, the within-school experiences of black and Latino students changed for the better compared with white students when measured by student self-reported academic track placement.

Learned from One School District's Experience

Arts education in the nation's public schools is facing challenges despite strong public support and growing evidence of its wide-ranging benefits. Educational initiatives such as the federal No Child Left Behind Act do not include accountability measures for arts education. This has prompted schools to shift instructional time and resources from the arts to other subjects. A recent survey of 82 school districts in Los Angeles County revealed that most districts dedicated less than 1 percent of their budget to arts education.

Featured Project

Implementing Standards-Based Accountability

Standards-based accountability (SBA) in education entails the development of content and performance standards, the administration of assessments aligned with the standards, and the imposition of consequences tied to assessment results. As a result of the No Child Left Behind Act of 2001, all 50 states will be implementing forms of SBA over the next few years. The RAND Corporation is conducting a longitudinal study that focuses on the impact of SBA on mathematics and science instruction and achievement. This study is designed to identify factors that enhance the implementation of SBA, foster positive changes in school and classroom practice, and promote improved student achievement.
